13 time-tested ingredients

From nature's own storehouse we have carefully selected 13 ingredients... ingredients that provide the mild expectorant qualities... the soothing, demulcent action... the pleasant, lingering local action... which, combined, relieve irritating coughs and hoarseness due to common colds.

Here, compounded into a palatable, readily acceptable, golden amber liquid they produce

— the pleasant, soothing cough syrup

DARTUSSIN—DPS Formula 204—A pleasant and soothing cough syrup contains:

Extracts of:
White Pine Bark
Wild Cherry Bark
Horehound Herb
Cardamon Compound
Blood Root
Licorice Root
Balm of Gilead Buds
Honey
Menthol
Eucalyptus
Iodine
Glycerine
Simple Syrup

Dosage one-fourth to one-half teaspoon every 3 to 4 hours.
Available in 2 and 4 oz. bottles.

DARTELL LABORATORIES
1226 S. Flower St., Los Angeles 15, Cal.

dartussin

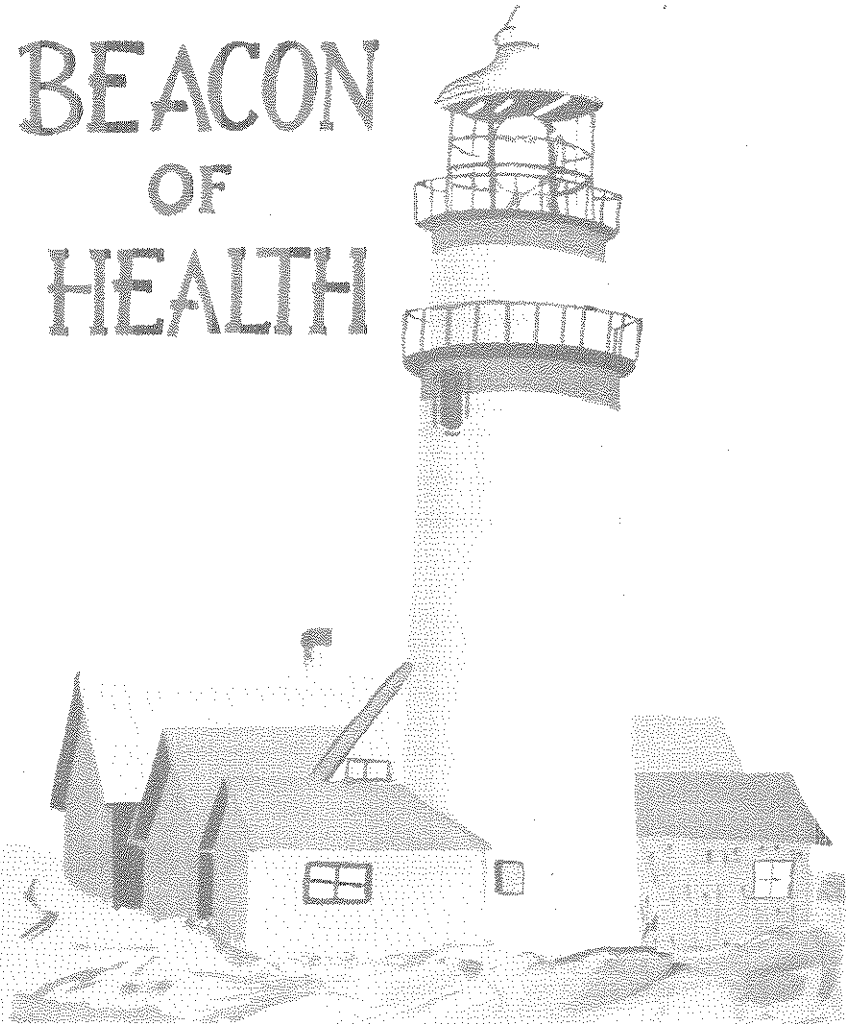

DPS Formula 111
(with Vitamin B-12)
Now reduced 20% in price

Manufacturing economies and some reductions in raw material costs have made possible a 20% reduction in the price of this Formula. THE FORMULA IS UNCHANGED. Each 3 tablets provide: Vitamin B-12, 6 mcg.; Vitamin B-1, 1 mg.; Nicotin, 3 mg.; Iron (from Deionized Iron) 30 mg., in a base of specially processed diastase and stomach substances.
NEW LIST PRICE \$4.00
90 Tablet Size

For Further Information — Wire, Call or Write

E. W. HITCHMAN

316 Lumberman's Bldg. BR 0455 Portland, Oregon

BASIC FORMULA—

An excellent product
Has been improved—

The Woodard Laboratories were the first to formulate an alfalfa product whose principal ingredient was an extract derived from the whole plant. This product, Basic Formula, consisted of those vitamins and minerals essential to the daily dietary routine, plus many trace minerals. The colloidal activity evidenced by microscopic examination facilitated assimilation of those minerals.

As the culmination of a year of formulation research we are now in a position to offer an improved product to the profession, with the price remaining the same. A careful check of our label will reveal these improvements.

Six Basic Formula tablets now contain:

Vitamin A (fish liver oil)	5000 USP Units
Vitamin B ₁	2 milligrams
Vitamin B ₂	4 milligrams
Vitamin C	30 milligrams
Vitamin D (irradiated ergosterol)	400 USP Units
Vitamin E (natural mixed tocopherols)	2.2 Inter. Units
Vitamin B ₆	0.5 milligram
Pantothenic Acid	6.0 milligrams
Niacin	5.0 milligrams
Biotin	6 micrograms
Inositol	100 milligrams
Para-amino-benzoic Acid	1 milligram
Choline	15 milligrams
Folic Acid	0.1 milligram
Iron (ferrous sulfate)	5 milligrams
Iodine (potassium iodide)	0.1 milligram
Calcium (dicalcium phosphate)	260 milligrams
Phosphorus (dicalcium phosphate)	210 milligrams
Magnesium (magnesium oxide)	100 milligrams
Sulphur	100 milligrams
Copper (copper sulfate)	0.5 milligram
Chlorophyll	20 milligrams
Alfalfa Concentrate	21 grains

Students' Wives' Auxiliary

By JO ANN STORTS

The new green room at W.S.C. was again the gathering place of the Students' Wives Auxiliary meeting on December 7. We were privileged to welcome many new members.

Meeting was called to order by our vivacious president, Gerry Whiting. It was decided that we take our Rummage to Jewel Rapp's at 6016 S.E. Foster Rd. A committee was appointed to have everything prepared for the big day of February 1st. A tour was planned for January 11, to take a group of members and their friends through the East-side Cleaners, to see a demonstration of the cleaning of rugs, upholstery, etc. Starting time 1:00 p.m. Representatives from our group were appointed to go to the Doctors' Wives Auxiliary meeting to discuss curtains for the gym and ask for aid in giving the Rummage Sale. We will sincerely be grateful for any help they may wish to give us. A Friendship committee was appointed, Margie Woods, Doris Johnson, Bonnie Miller, and Appa Anderson. Please contact this committee concerning all births, deaths, illnesses, weddings, and new members. Committees were appointed to be in charge of the next two meetings. January meeting—JoAnn Storts, Ruth Cullen, Audrey Long, and Donna Flagg (incidentally a new member). February meeting—Mildred Richardson, Jewel Rapp, Jo Hill, and Lola Smith.

If any of you know the whereabouts of the Students' Wives Auxiliary Scrapbook please call your scribe at SU 9244.

After all the business was taken care of, all eyes were cast on the beautiful refreshment table. The Christmas theme had been carried out with pine bows and red candles. Small gifts were exchanged and Christmas cookies and coffee were served to a hungry but happy crowd. Everyone left the meeting with the good feeling of anticipation of seeing each other at the January 18 meeting at Western States College.

Amnesia, if arranged to be retro-active as of 1912 or so, could be made man's most attractive illness. Man is dust—and woman settles him.

Junior News

By BILL SPURLOCK

New term and classes as usual—We wish to welcome Jack McCauley and Eugene Scrivner who have arrived from other schools. We sincerely hope your stay at Western States College will be both educational and pleasant.

The ranks of bachelors are growing smaller and smaller, Karl Peterson and Leighton Gray being the latest to succumb to the winsome wiles of the fairer sex. Their marriage took place during the Christmas holidays. We extend our heartiest congratulations and hope that your marriages will be both happy and fruitful.

Financially the class is on a sound basis, Dale Olson, our capable Secretary-Treasurer, reports an \$83.00 credit. Let us hope that nothing will arise to liquidate our assets.

Senior News

By ART JOHNSON

By the way, who would your reporter see in a coffee shop in L. A. during the Christmas Vacation but Dr. W. Martin Bleything? Could one miss seeing that head of hair?

Good news regarding the safety of a former classmate, Donovan Hampton with the Marines in Korea, was recently received in letters to Roberts and Bethke. Hampton has been in the thick of the Korean War since shortly following his entrance to active duty last July.

We were all happy and relieved to hear of his security.

Toasters

By HERBERT SHEPERD

Meeting of the Toasters resumed after the Holidays, with an extremely small roster of members. This was a very poor showing for a professional school of this size. Everyone who has to meet the public should take advantage of every opportunity to put himself at ease when asked to speak. This is your chance so get behind the Toasters.

New to Staff

By CHUCK MATHER

With the new Winter term, Dr. Edmond Samuels became part of the teaching staff of W.S.C.

Dr. Samuels is a graduate of W.S.C., Class of 1948, has since been in charge of the Lab Department at Portland Osteopathic Hospital. He will be teaching Clinical Diagnosis and Pathology. He will also be in charge of the Laboratory Department.

We are happy to have him on the staff and are looking forward to many classes under his direction.

Dr. Samuels, his wife and small daughter reside in the Sunnyside District.

STUDENT ASSEMBLY

Drs. Rutz and Gallagher were the speakers at the past two student Body meetings. Their speeches were both timely and entertaining.

At the December 15th meeting, Dr. Rutz spoke about "The Student and Public Relations in Chiropractic." His speech was very timely and enlightening. It is hoped that the students will heed his advice to further the profession.

Dr. Gallagher, who is on the legislative committee of the Oregon Chiropractic Association, spoke at the January 12th meeting about the problems that confront his committee each session of the legislature. Dr. Gallagher also suggested that the student suppress all rumors that have no basis and that are not official.

We hope that in the near future men as capable as Drs. Rutz and Gallagher will be included on the programs of future Student Body meetings.

VETERANS' NEWS

Attention, veterans . . . Are you planning to go to school under the G.I. Bill? Do you expect to go on with your studies after July 25th? Then . . . you'd better start making your arrangements right away. Here's the reason . . . Quite a few schools operate on a regular term basis. For those schools, February marks the start of the final Spring term before the G.I. Bill training deadline arrives next summer. Under the law, you have to be actually in training as of next July 25th. Naturally, if you're away from school then because of regular summer vacation, or other reasons beyond your control, you're all right. But you must be enrolled! And enrolling after February in regular term schools may be difficult.

Another thing . . . When you apply for your Certificate of Eligibility, you must tell the Veterans Administration the *course* you're planning to take, and the *school* you want to attend. Remember, our Spring term starts in April, so better get busy!

When the motorist who had crashed into a telephone pole and brought down the wires recovered consciousness, his hands were clutching the wires.

"Thank Heavens," he explained, fervently. "It's a harp!"

Christmas Holiday Party

By APPA ANDERSON

The Christmas Holiday Party December 28th was attended by fifty doctors, students, and their families and friends. Dancing was to records and the tricky piano palpation of Louis Kirchner. Tables were set around the gym for Canasta, Bridge, Bingo, Chess and just plain gossip. Later in the evening a group of warblers gathered around the piano for some good old fashioned harmonizing. The refreshment table was the scene of activity all evening. We did not know we had so many good cooks in the crowd. We hope it isn't too long before we can have a repeat on some of those delicious delicacies. Everyone gathered to a big circle around the Christmas tree for the exchange of gifts and the reading of the guest book. Dr. Dick Stober acted as Santa's representative. Dr. and Mrs. W. A. Budden and Mrs. William Foster, Dr. and Mrs. Harold Hulme, Dr. and Mrs. Walter Rich, and several of the newly graduated doctors were honored guests.

Freshman Class

By JOHN L. DOMINGUEZ

Bob Clifton, his wife Neta and their three children spent Christmas holidays with Neta's sister in Tacoma and other relatives in Seattle.

George Stephens motored to his old home town, Oroville, Washington via Seattle. The big event was a general family reunion which they had not had for over four years. They had a grand time together. Returning to Portland, Steve was in a hurry and got in bad with the Washington State Highway Patrol to the tune of twenty U.S. dollars.

Lloyd Jacob went home to Seattle and enjoyed it so much that he was two days late in getting back to school.

Mills Johnson went home to Canada to try and bring his family back with him to Portland. To this writing he has not returned. He is still trying.

Big plans are afoot for the big Valentine's Dance, "Cardiac Capers." We promise to surprise even ourselves on this, so be sure to come, February 16th, for a good time.

Sophomore's Snowball Frolic

By VELMA BURNS

The Sophomore's Snowball Frolic dance was held in the school gymnasium Friday evening, December 22, and was considered an outstanding social success by all of the large number attending. Students and their guests wore formal attire and danced around a beautifully decorated Christmas tree, occupying the center of the floor, under a sky of tinsel and snowball decorations, to the strains of Kirstich's orchestra. The combination of subdued lighting, an abundance of fir boughs lining the walls and the realistic snowballs hanging in clusters over the dancers gave an atmosphere of real winter wonderland.

Intermission time was opened by all of the merry-makers singing Christmas Carols led by Raymond Waid. Then an interlude of fun was provided when Master of Ceremonies Brad Storts introduced the "Low South Side Thespian Society" who presented a satire entitled "A Typical Day in the Clinic" or better known as "Oh! My Aching Back." It was mentioned that the author and director of this skit, Dick Stober, a senior, recruited the cast ten minutes before curtain time and the audience was greatly surprised if not shocked by the dramatic abilities revealed. The skit was followed by a drawing for some very fine door prizes. An Ophthalmoscope, donated by E. W. Hitchman of Dartell Laboratories, was won by Dr. David McFadden, a graduate of WSC of last March who now maintains an office on Sandy Boulevard. Norman Enridge, a junior, won an electric clock donated by Glenn Matteson. An assortment of vitamins given by T. F. Rose of Vitamins, Inc., was won by Art Johnson, a senior, and Al Makin, a freshman, won a clinical thermometer set donated by Archie Allen. After intermission a large assortment of tasty refreshments and coffee was served at two beautifully

decorated tables at either end of the gymnasium.

As we all well know, a great deal of effort and initiative is necessary on the part of many to arrange a successful affair of this nature and we believe that recognition should be given to the following for their participation in making the Snowball Frolic one to be long remembered for its attractiveness and enjoyment and becoming a standard for other affairs to follow. At the top of the list in heavy print is the name Brad Storts, who, in addition to heading the dance committee, procured the huge Christmas tree, designed and supervised the installing of the decorations and did a commendable job as Master of Ceremonies. The Failors—Hazel and Ralph—backbone and steadying sail of the project, provided much towards its success. Hazel was in charge of the beautifully decorated and much appreciated checkroom. Ralph was in charge of the lighting and provided a helping hand in many other respects. Appa Anderson and Velma Burns had little opportunity to get any dancing in, so busy were they as hostesses and looking after the admission tickets. The Adams—Bette and Chuck—contributed a great deal of time, ideas and artistry to the decorations as well as seeing to the replenishment of the refreshments. Bill Manske, President of the Sophomore Class, procured the orchestra which was considered "Tops." The art masterpieces of Christmas scenes on all of the blackboards were the handiwork of Harry Dunlap. During the course of the dance two medleys were called by Joe Boucher, serving the purpose of getting the crowd acquainted. In addition, Stan Flagg, Peter Pisk, George Czeck, Jim Howard, John Tarr and Ron Bendio also contributed their time towards making this affair such a gala occasion.

Going on?

Following a two months visit with Dr. and Mrs. Budden, Mrs. Budden's sister, Mrs. William Foster, has returned to her home in Washington, D. C. Her many friends are looking forward to her next visit.

* * *

To the Freshman class go the honors for all those nice new pencil sharpeners found now in strategic places all around school. The hard working installation crew was John Erickson and LaVerne Saboe.

* * *

The Pediatrics Clinic will be held on the second Saturday of each month. This is for pre-school and school age children. Call Ta. 1343 for further information and appointment.

* * *

We are happy to see Mrs. Budden back with us in the office.

* * *

With the holidays we said goodbye to Betty Coleman and William Linde, who completed their special course in the Lab. Dept. They made many friends during their term at W.S.C., and we hope they come back for a visit soon. We have several new students for special courses this term. Vera Illingworth, Lab., Barbara Metzgerand and Violet Allan, X-Ray. Doctors William Babnick, Duke X-Ray. Doctors William Babnick and Duke Won are taking Post-Grad courses.

"Name?"
 "Joe Popupopopopopulus."
 "Occupation?"
 "I drive a motorboat."

Phi Nu Sigma

By BILL SPURLOCK

The Naturopathic Fraternity members volunteered to redecorate the new green room on the second floor of the College. They have been busy painting and cleaning and it is now completed and will serve as a meeting room for the fraternities and other groups who wish to take advantage of it. We hope the room will soon be nicely furnished and available for a number of purposes.

The regular meeting of Phi Nu Sigma, scheduled for December 4 was postponed, but a special meeting will probably be called soon. New officers are to be elected in March so another initiation of new members will take place, before then, so that all of the new members may participate. Application blanks are available.

Soon after the fraternity house opened for the term, the brothers received a note from a sorority house across the street:

"Dear Sirs: Please procure curtains for your windows. We do not care for a course in anatomy."

The boys' note of reply said: "Dear Girls: The course is optional."

This didn't come from the police blotter, but it could have. It sez here that a bar is something that if you go into you're apt to come out of singing a few of and get tossed behind more of the same.

Soph Sighs

By JOE BOUCHER

The Sophomore class wound up the year 1950 feeling very proud of themselves over their so very successful Christmas Dance, "The Snowball Frolic," and now after those highly enjoyed holidays are over, we are back to the old grind. The whole class seems to have had a strenuous vacation for they all seem to be plagued with that irresistible urge to close their eyes for forty winks. That small select group known as the "terrible tardies" must have passed New Year's Resolutions, for they are fast losing the title. Of course time will tell.

General Pathology was a pleasure last term and it looks like Special Pathology will be this term, as we welcome Dr. Ed Samuels.

At the top of the news parade this month we find Dick Weaver as proud papa of a seven-pound baby girl, Jan Mara, as of December 7th. We were beginning to look for grey at the temples on Dick Hans, but baby David is all well again. Erwin Grant has started to work nights at the Multnomah County Detention Home. We'll all have to start watching our steps now. Norman Hansel is now engaged to Vi Bierly of Woodburn. When we asked him for more details all we could get was, quote, "Sigh, Sigh." Chuck Mather has received his draft board's answer to his medical examination—what do you know—4F. Also on the receiving end of cancellation of orders to report was Helen Overton. Both Dick Weaver and Bill Peltzer were in car wrecks during vacation. Peltzer's beautiful Nash came out of it without a scratch, but Weaver's Ford was not so fortunate, ending up with a couple of broken axles. Thought for a while they were going to have to shoot the poor thing. Of course the boys were both lucky as they are both back all in one piece, I think. Your scribe, Joe Boucher, took his family home to Canada for their vacation. Stan Flagg and Peter Pisk and their families spent the holidays with relatives in Montana. Flagg took his wife and new baby daughter to meet relatives in the home town, Kalispell, for the first time. Pisk took his wife and daughter back to their home town, Glendive. On the trip back they

practically needed to switch to dog sleds, but you know the old saying, "Neither snow nor wind nor ice can stay them from the halls of learning."

Since we must be off attending to some New Year's Resolutions this looks like all the news for this time.

Case History

SEX—Male.

AGE—29.

OCCUPATION—Salesman.

COMPLAINT — Gradual onset, periodic attacks for past year increasing in frequency and severity. Indigestion, flatulence, nausea, and pain after eating, accompanied by headaches, dizziness, constipation and backaches.

CLINIC FINDINGS — On physical examination extreme tenderness of the pyloric area of the stomach was noted. Spinal analysis—Subluxations of 3rd and 4th cervical, 5th, 10th, 11th, and 12th dorsal. Lab report—C.B.C. and urinalysis normal, gastric analysis—high acidity of both total acidity and free HC1, no pathology noted on microscopic examination. X-ray examination of stomach with barium meal revealed an apparent niche or filling defect suggestive of duodenal ulcer.

DIAGNOSIS—Duodenal ulcer.

TREATMENT—Patient given specific diet supplemented by gastric mucin. Repeated adjustments as indicated, especially the 10th, 11th, and 12th dorsal. Moderate amount of diathermy through stomach.

PROGRESS — Immediate relief of flatulence and accompanying distress. After one month most of the pain had subsided and very little tenderness remained. Periodic fluoroscopy was made showing definite progress in healing. Patient dismissed after six months, relieved of all symptoms.

A woman ordered thirty pounds of hamburger, fifteen pounds of steak, a heavy rib roast, and some stew meat.

"Send it to my house," she said.
"I'm sorry," the butcher replied,
"but we have no delivery service."

"Don't be foolish," the woman scoffed. "There is your delivery wagon out front."

"Yes, madam," the butcher replied,
"but you just bought the horse."

State Requirements by Basic Science Boards

MICHIGAN:

- Reciprocity in the B. Sciences with 3 states, based on reciprocity agreements.
- Anatomy, Bacteriology, Chemistry, Hygiene, Pathology, Physiology.
- 75% each subject.
- Permits reexamination of 1 subject failed, in the failed subject only.
- High school graduate or equivalent.
- None.

MINNESOTA:

- Reciprocity with 10 B. Science Boards; accepts Ntl. Bds. in medicine.
- Anatomy, Bacteriology, Chemistry, Hygiene, Pathology, Physiology.
- 75% each subject.
- Permits reexamination of 2 subjects failed, in failed subjects only, within 1 year, no further fee.
- High school graduate. (f) 21.
- Informal agreements. Optional—applications considered individually. Eligible are from states having reciprocity.
- Anatomy, Bacteriology, Chemistry, Hygiene, Pathology, Physiology.
- 75% each subject.
- Permits reexamination of 1 subject failed, in failed subject only.
- High school graduate. (f) 21.

NEW MEXICO:

- No reciprocity.
- Anatomy, Bacteriology, Chemistry, Hygiene, Pathology, Physiology.
- 75%.
- Failed in 1 subject, must wait 3 months, 2 or more subjects must wait 1 year.
- High school graduate. (f) 21.
