

THE
Nashville College
of Drugless
Therapy

NASHVILLE, TENNESSEE

CHARTERED BY THE STATE OF TENNESSEE

Duly authorized to confer the Degrees of
Doctor of Chiropractic, Master of
Chiropractic, Doctor of
Naturopathy, Etc.

MEMBER

THE COUNCIL OF COLLEGES
THE NATIONAL CHIROPRACTIC ASSOCIATION

TO THOSE INTERESTED IN A BETTER
FUTURE

This is an age of great discoveries and vast changes—the day of transoceanic flights, television, and Chiropractic.

Since its discovery some forty years ago, Chiropractic has made tremendous strides. Approximately one-half the citizens of the U. S. have learned that, for most conditions, it is a better, more scientific, sensible and safe way to better health.

This has brought about an unprecedented demand for capable men and women with well trained hands and minds, and a clear vision of the opportunity this age offers, to practice this great and rapidly growing profession—a demand that will not begin to be filled during your lifetime.

Horace Greely's "Go West" has long since served its usefulness; the frontiers and vast homesteads of that great empire no longer lie waiting the touch of ambitious hands. Today Chiropractic and Naturopathy offer such unlimited horizons, literally teeming with opportunities for service and livelihood for well trained drugless physicians that very few persons even begin to realize.

In founding the Nashville College of Drugless Therapy and the Nashville College of Chiropractic, we have made abundant provision to give you a most liberal and thorough training—thus graduating every student as a competent Chiropractor and Drugless Physician, *completely equipped to successfully practice anywhere.*

If you are interested in building such a future, we shall be glad to have you with us.

Very cordially yours,

W. GUY CHEATHAM, *Dean.*

SPECIAL INSTRUCTORS

In addition to the above, who are all regular full time instructors, special lectures are regularly provided for First Aid, Medicine (for Comparative Therapeutics), Osteopathy (for Comparative Therapeutics), Jurisprudence, Obstetrics, Surgery, Gynecology, Neurology, Naturopathy, Neuropathy, and Chiropractic Mechanics.

General Information

The Nashville College of Chiropractic and its parent school, The Nashville College of Drugless Therapy, Inc., is the realization of a desire to see in the South a first class drugless college.

It started in the fall of 1934, and was a success from the beginning. Due to the repeated requests from the Chiropractors of the South, the Chiropractic College was established about a year later—and in 1936 a department of Naturopathy was added. Since the beginning of this college it has been necessary to enlarge our quarters at two different times, to accommodate this rapidly growing institution.

LOCATION—1803 WEST END AVENUE

. . . in the heart of the college district of Nashville. Within just a few blocks of our new location are Vanderbilt University, Peabody College, Scarritt College, Wallace University School, etc.; also the Governor's residence, Union Station, new Post Office, Centennial Park, are all within five to ten minutes' walk on the same street. It is on two important car lines and easily reached from any part of Nashville.

The division of Neuropathy and The College of Drugless Therapy is at 150 Fourth Ave., N., a half block from the heart of downtown Nashville.

The Hydrotherapy Department of the Naturopathic College is located in Red Boiling Springs, Tennessee, a nationally known health

An interne makes ready to give a colon treatment on one of the "automatic" irrigators.

A class in Chiropractic Adjusting . . . Plenty of clinic material is provided for student practice, and ALL the different methods are taught.

resort, and is completely equipped to give a most practical training in all phases of Hydrotherapy.

STUDENT AID

The college has a department to help worthy students obtain work while taking this course.

The college also maintains a clinic in which good treatments are given at very moderate prices. Each student is paid for every treatment he gives after he is admitted to clinic practice, which usually begins within nine months after his enrollment. The average student, from this source alone, should earn from \$2.00 to \$20.00 or more per week. We will do all we can to assist students in obtaining outside employment. We cannot, of course, guarantee this, but students who desire to work while in school, will be given every possible assistance and should list their preferences with the Registrar. It is impossible to find employment for students until they arrive in Nashville.

Our graduates are given a most thorough training in colonic irrigation. Not merely one, but various colonic machines and methods are used and taught. Here an interne is giving a colonic treatment with the "tube" type irrigator.

CLASS HOURS

The day school is in session from 8:30 to 12:30. These hours include lectures and recitations only. In addition to this daily period, each student is required to spend from 600 to 1500 hours in clinic (depending on the course).

After students have been *admitted to the clinic*, they can, if they wish, spend the *entire day* at the school, so as to more quickly obtain both the clinical instruction and the required clinical hours. These hours spent in clinic also offer considerable additional income for students, as every interne admitted to the clinic is paid for each treatment he or she gives.

Classes daily, Monday through Friday of each week.

THE EVENING SCHOOL

For those who have to work through the day, evening classes are provided. These meet five nights per week—Monday through Friday—from 6 to 9, and have the same requirements for additional clinic hours as the day courses.

It will take about one-fourth longer to finish any given course in the night school, but it offers the same instruction, training, faculty, and degrees as the day school.

RECOGNITION OF CREDITS FROM OTHER COLLEGES

The Nashville Chiropractic College recognizes, and will accept for full face value, certified credits from any resident, chartered chiropractic or naturopathic college in America. However, to secure diploma from this college it is necessary to spend at least the final eight months preceding graduation in study in this institution.

If you desire credit for work done in another chiropractic college, secure from that college a written statement of your time and subject credits, and present same at the time of your enrollment here.

Here are two views of our Hydrotherapy Department, Red Boiling Springs, Tennessee. On the left, Dr. Leslie, Director of our Hydrotherapy Department; Dr. Cheatham, and Bertha L. Leslie, R.N., standing in front of the Administration Building. On the right, a part of the regular staff and three patients who happened to be present.

We will also recognize credit for some of the work done in any reputable osteopathic or medical school.

LIBRARY

The library of the Nashville Chiropractic College now numbers about five hundred volumes of valuable reference works, and is being constantly increased—students are encouraged to read widely.

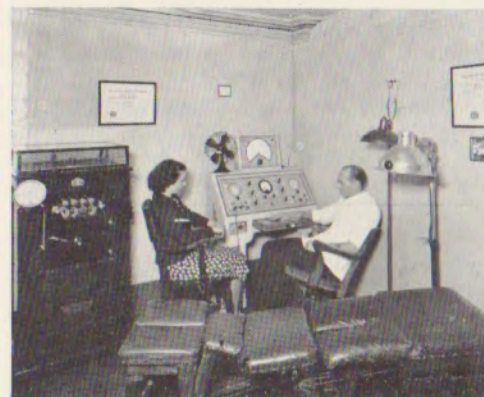

SOCIAL ACTIVITIES

Good wholesome fun and lots of recreation and play go hand in hand with hard study.

Miss Harris, of the college staff, is charged with the responsibility of seeing that all students enjoy their stay here, and to plan for regular outings and social events of every kind. Each new class, during the second week of each semester elects some one of its number to co-operate with her in arranging a continuous succession of good times.

FEES

No college fees or dues of any kind, but, of course, students will be charged with breakage, damage, or defacement of microscopes, laboratory equipment, or the school property.

Left—A view of one of the several treatment rooms in our Out Patient Clinic. This department is entirely separate from the regular college clinic, and is located uptown, 154½ Eighth Ave., N. Selected senior students will spend their internship here, giving treatments at standard prices. (Note the amount of equipment visible.)

Right—A few of the actual patients of the regular college clinic as they wait for treatment. . . Several hundred treatments are given each month in this clinic alone.

Our Purpose

It is our purpose to give students the most thorough training possible in everything that can in the least contribute to their success as accomplished Chiropractors and Graduate Drugless Physicians.

We shall spare no effort in the discharge of this purpose, and if you give us your undivided time and interest, we will give back to you a practitioner who can go *anywhere* and *successfully* practice his profession.

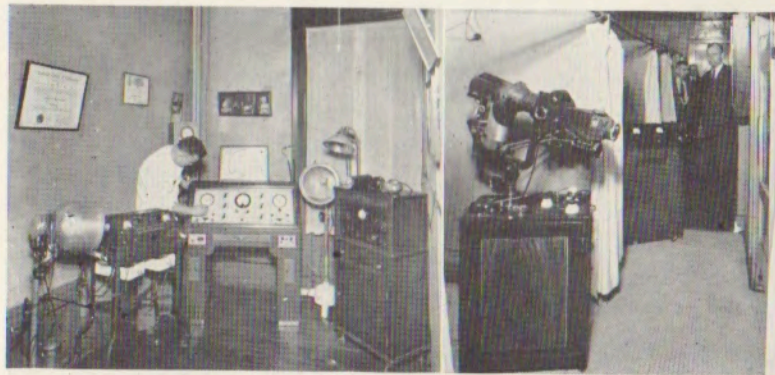

Chiropractically yours,

R. E. CONLEY,
President.

PHYSIOTHERAPY AND CHIROPRACTIC

This college stands for COMPLETELY trained chiropractors and drugless physicians—therefore, it includes a fundamental knowledge of ALL methods commonly used by chiropractors in the field, including most physiotherapy modalities.

But in so doing, it does not lose sight of the fact that, fundamentally, this is a CHIROPRACTIC college and so gives chiropractic theory, philosophy, and practice FIRST place—In fact, only about one hour out of every ten is devoted to physiotherapy, and that during the last year in school. This makes our graduates familiar with, and entirely capable of efficiently using modalities, if they so desire—but not at the expense of real chiropractic training, which comes first with us ALWAYS.

A part of the physiotherapy equipment used for advanced student training.

Courses Offered by the Nashville College of Chiropractic

1. THE COMPLETE CHIROPRACTIC COURSE (4 Years of 9 Months each).

This consists of everything necessary for the complete training of a graduate Chiropractor and Drugless Physician. Those who finish this course have everything that can be given a drugless physician—Chiropractic, Neuropathy, Naturopathy, Electrotherapy, Hydrotherapy, Dietetics, and all other subjects that in any way relate to Drugless Practice. There is no better course anywhere or at any price for those who desire to be fully trained for the practice of Chiropractic.

This course consists of four years of nine months each, embracing 12 semesters, 5,230 hours, divided as follows:

Anatomy -----1,000 hours
(Embryology, Osteology, Syndesmology, Neurology, Myology, Dissection, Etc.)

Diagnosis -----1,100 hours
(Pathology, Symptomology, Eitology, Laboratory Technique, Prognosis, X-ray, Bacteriology, Urinalysis, Blood Chemistry)

Theory and Practice -----2,150 hours
Philosophy, Palpation, Analysis, Adjusting
(Technics and Methods of every kind, including Comparative Therapeutics, Gynecology, Ears, Nose, Throat, Clinic Practice with 1,000 hours of actual experience)

A class in palpation.

Physiotherapy -----500 hours
(Electrotherapy, Hydrotherapy, Actionotherapy, Phototherapy,
Chromotherapy, Colonic Irrigation, Massage, Etc.)

Miscellaneous -----580 hours
(First Aid, Public Health, Toxicology, Chemistry, Practice
Building and Salesmanship, Ethics, Phytotherapy, Dietetics, Etc.)

Those who finish this course receive *three* degrees, Doctor of Chiropractic, Doctor of Neuropathy, and Doctor of Naturopathy, and also receive three separate diplomas on graduation. In addition to Chiropractic, it also renders graduates eligible to license as a Naturopath and Drugless Physician, in states in which such license is provided.

COST OF COURSE AND PAYMENT PLAN

- (a) \$550.00 cash with enrollment pays for entire course.
- (b) \$100.00 down and \$25.00 per month for twenty months (\$600.00).
- (c) \$50.00 down and \$4.00 per week for 150 weeks (\$650.00).

2. THE STANDARD CHIROPRACTIC COURSE (30 Mos.)

We recommend this course for those who are unable to spend four years in school. Next to our complete course we consider it the best possible training for a Chiropractic Physician. On graduating from the standard course, each student receives *two* degrees, Doctor of Chiropractic, and Doctor of Neuropathy, and also receives two separate diplomas.

This course consists of three years, ten months each, or thirty months net time, ten semesters, 4,350 hours, divided as follows:

Dr. Conley interviewing a student in his private office.

Anatomy -----850 hours
(Embryology, Osteology, Syndesiology, Myology, Angiology,
Splanchnology, Neurology, Dissection)

Diagnosis -----900 hours
(Pathology, Symptomology, Eitology, Laboratory Technique
and Prognosis, R-ray, Bacteriology, Urinalysis, Blood Chem-
istry)

Theory and Practice -----1800 hours
Philosophy, Palpation, Analysis, Adjusting
(Gynecology, Comparative Therapeutics, Ears, Nose, and
Throat, with 800 hours in actual clinic experience)

Physiotherapy -----500 hours
(Electrotherapy, Hydrotherapy, Actionotherapy, Photother-
apy, Chromotherapy, Colonic Irrigation, Massage, Etc.)

Miscellaneous -----300 hours
(First Aid, Public Health, Toxicology, Chemistry, Practice
Building and Salesmanship, Ethics, Etc.)

COST OF COURSE AND PAYMENT PLAN

- (a) \$450.00 cash with enrollment pays for entire course.
- (b) \$100.00 down and \$25.00 per month for sixteen months (\$500.00).
- (c) \$25.00 down and \$4.00 per week for 130 weeks (\$550.00).

3. THE CHIROPRACTIC SHORT COURSE (24 Months)

Short courses in Chiropractic are becoming increasingly unpopular, both with the public and Chiropractors in the field. There are now only a few states that will accept a graduate of an eighteen months course in Chiropractic. Those who enter such a course today run a

One section of our Clinics. Here students get real practical training and earn while they learn.

great risk of having most of the remaining states raise their standards before they graduate and leave them unable to secure a license on eighteen months training. The statement was openly made before the Council of Chiropractic Examining Boards in 1937 that eighteen months graduates were no longer acceptable and that steps are now being taken to prevent graduates of eighteen months Chiropractic courses from being licensed to practice even in many states which have hitherto recognized eighteen months courses.

On the other hand there are many persons who have definitely decided on a Chiropractic career, who are unable to finance a long course of study, and as yet there is little or no provision to assist such students. For such the Nashville College of Chiropractic is now offering a twenty-four months course. We do not recommend it, because we do not feel that it offers sufficient training to make the most successful Chiropractor, and due to the fact that The National Chiropractic Association is planning to require all colleges to lengthen the course of study in Chiropractic, it is probable that we will be able to accept students for this Short Course for a very *limited* time only. This college will take care of all students it enrolls in any course and will see that they have suitable openings for practice, but we are of the opinion that all Chiropractic Colleges will be notified within the next few months not to accept any more students for even twenty-four months courses. For this reason, we advise every person interested in this Short Course to enroll at the earliest possible moment.

This course consists of three years of eight months each, or twenty-four months.

A Physiotherapy Clinic—Our students are thoroughly grounded in all branches of physiotherapy—electrotherapy—mechanotherapy, etc.

ty-four months, or 3,250 hours of essential Chiropractic subjects only, divided as follows:

Anatomy	750 hours
(Embryology, Osteology, Syndesmology, Myology, Angiology, Splanchnology, Neurology.)	
Diagnosis	750 hours
(Pathology, Symptomology, Etiology, Prognosis, X-ray, Urinalysis.)	
Theory and Practice	1,500 hours
Philosophy, Palpation, Analysis, Adjusting (Gynecology, Ear, Nose and Throat, with 600 hours actual clinic experience.)	
Miscellaneous	250 hours
(First Aid, Public Health, Toxicology, Chemistry, Practice Building and Salesmanship, Ethics, etc.)	

Graduates receive a diploma with the Degree of Doctor of Chiropractic.

COST OF COURSE AND PAYMENT PLAN

- (a) \$400.00 cash with enrollment pays for entire course.
- (b) \$50.00 down and \$25.00 per month for sixteen months (\$450.00).
- (c) \$25.00 down and \$5.00 per week for 95 weeks (\$500.00).

POST GRADUATE COURSES

Two weeks of Advanced Chiropractic Methods are offered every summer, beginning the second Monday in each July, with P.G. diploma, to graduate Chiropractors for only \$25.00. This includes a Technique Review Course which will give a summary of what this College considers the outstanding techniques of the year.

Classes in Advanced and Specialized Dissection will be held once per year for drugless practitioners. Write for exact dates. Price \$25.00 for two weeks, additional time at \$10.00 per week. Dissection Certificate to those who complete this work.

Special thirty-day classes of Intensive Neuropathic Technique, \$50.00 cash with enrollment. We especially recommend this for the average Chiropractor. It will immediately increase his ability to hold patients and build practice.

Six months advanced study in Naturopathy which will qualify graduate drugless physicians for the degree, Doctor of Naturopathy, \$150.00 cash with enrollment.

Only *graduate* drugless physicians admitted to any of the above courses. Bring diploma, license, or other evidence of graduation, unless personally known to some member of our faculty. This is necessary to admission to any *post-graduate* course offered by this college.

A PARTIAL LIST OF THE SUBJECTS TAUGHT

- | | |
|---------------|---------------------|
| *ANATOMY | BLOOD CHEMISTRY |
| *PHYSIOLOGY | MECHANOTHERAPY |
| *BACTERIOLOGY | PSYCHOLOGY |
| HISTOLOGY | NEUROLOGY |
| *PATHOLOGY | *PALPATION |
| DIETETICS | PEDIATRICS |
| *GYNECOLOGY | *QUIZ COURSE |
| *CHEMISTRY | *TERMINOLOGY |
| *PHILOSOPHY | FIRST AID |
| *DIAGNOSIS | HYGIENE AND SANITA- |
| *URINALYSIS | TION |
- *SYMPTOMATOLOGY
- *PRINCIPLES AND PRACTICE OF CHIROPRACTIC
- PRINCIPLES AND PRACTICE OF DRUGLESS THERAPY
- PRINCIPLES AND PHILOSOPHIES OF OTHER METHODS OF HEALING
- *THE HISTORY OF HEALING FROM THE EARLIEST AGES
- MODERN TECHNIQUES OF EVERY KIND
- HYDROTHERAPY, ITS PRINCIPLES AND PLACE
- COLONIC IRRIGATION
- PHYSIOTHERAPY AND ELECTROTHERAPY
- ORIFICAL THERAPY
- *X-RAY TECHNIQUE
- LABORATORY TECHNIQUE
- ZONE THERAPY
- *CLINIC PRACTICE—EACH STUDENT IS REQUIRED TO PERSONALLY TREAT HUNDREDS OF PATIENTS BEFORE GRADUATION
- MATERIA MEDICA AND ITS RELATION TO DRUGLESS THERAPY
- EVERY KIND AND TYPE OF DISEASE, WHETHER IN OR OUTSIDE THE FIELD OF CHIROPRACTIC
- *THE BUSINESS PRINCIPLES OF SUCCESSFUL PRACTICE
- LOCATION, PRACTICE BUILDING, AND THE PURCHASING OF EQUIPMENT, ETC.

Only the subjects above marked thus (*) are covered in the Chiropractic Short Course.

REQUIREMENTS FOR ADMISSION

HIGH SCHOOL OR EQUIVALENT

TEXT BOOKS USED

ANATOMY—Gray, Piersoll.

BACTERIOLOGY—Bigger, Tobias, Jordan.

CHEMISTRY—Matthews, Peters, Luros, Roe.

CHIROPRACTIC MECHANICS—Edwards, De Jarnette, Carver, Hurley and Saunders.

CHIROPRACTIC PHILOSOPHY—Stephenson, Gregory.

DIAGNOSIS—Firth, Butler, Blumer.

DICTIONARY—Dorland.

ETHICS—Moore.

GYNECOLOGY—Miller, Curtis, Palmer.

HISTORY—Ligeros, Park.

JURISPRUDENCE—Buchanan.

OBSTETRICS—Scherman.

PHYSIOLOGY—Wiggers, Zoethout, Brubaker.

PHYSIOTHERAPY—White, Ireland.

PRACTICE OF MEDICINE (FOR COMPARATIVE THERAPEUTICS)—Tyson and Fussell, Savill.

PRACTICE OF OSTEOPATHY (FOR COMPARATIVE THERAPEUTICS)—Murray, Cecil, Garrison.

PRACTICE OF CHIROPRACTIC—Loban, Johnson, Carver, De Jarnette.

PUBLIC HEALTH AND SANITATION—Pyle, Boyd.

Dr. Lunday lecturing on Comparative Therapeutics.

THE HERMITAGE

THE PARTHENON

NASHVILLE AN IDEAL HOME FOR A SOUTHERN CHIROPRACTIC COLLEGE

Tennessee is a state known everywhere for its liberality, tolerance, hospitality, and good fellowship. The city of Nashville, situated almost in the geographical center of the state, is a city of colleges—some forty-five important institutions of higher learning being located here. One of the finest free night schools in America, Watkins Institute, is located in downtown Nashville. Here any white person, without regard to age, may take almost any subject for pleasure or for advanced credit—*absolutely free of charge*.

Nashville is a city of beauty and historical romance. Two Presidents are buried here. The Hermitage, the home of the colorful "Old Hickory," Gen. Andrew Jackson, is here. Nashville has the only exact replica in the world of the Parthenon of ancient Greece . . . a work of art and beauty, it stands in Centennial Park and may be visited at any time without charge.

The Soldiers' Cemetery, Fort Negley of Civil War fame, Fort Nashboro, the grave of General James Robertson, are all within a few minutes' drive of the College, and several historic battlefields of the Civil War—the sites of the battles of Nashville, Franklin, Stone's River, Murfreesboro, and Shiloh are all nearby.

Within three hours' drive of Nashville are two of the highest falls in Eastern America—one of them almost twice the height of Niagara. And within a few hours' drive are the highest peaks of the Great Smoky Mountains.

Swimming, fishing, hiking, skating, mountain climbing, boating, and other sports are yours for the doing. You will find no place where you can more congenially combine study and pleasure than Nashville—"The Athens of the South."

THE TOMB OF PRESIDENT JAMES K. POLK

High Spots

- Each department of this college is in all respects standard, and its work is fully recognized everywhere.
- Class Hours: 8:30 a.m. to 12:30 p.m. No sessions Saturday.
- Forty-five minute class periods.
- Room and Board from \$18 to \$25 per month . . . in private homes, boarding houses, clubs.
- It is usually possible to secure places where any student can at least earn his board.
- We help our students obtain desirable openings.
- After nine months students are admitted to the Clinic and should earn from \$2.00 to \$20.00 per week.
- Requirements: All students must have a High School education or a certified equivalent.
- Convenient Monthly Payments on all courses.
- Tuitions, Discounts—see under each Course as described in previous pages.
- New classes are started each year at approximately the following dates: January 1st-6th, April 1st-5th, September 10th-20th, but students may enroll any day of the year, and enter classes immediately, as our courses are topically arranged.
- We recognize credits from any reputable drugless college.
- River trips, swimming, fish fries, parties, picnics, are provided for student entertainment at regular intervals.
- Necessary text books for the entire course amount to about \$55.00, only part of which is necessary during first year.
- There are no extra dues or fees.

DO PAY US A VISIT AND LET'S GET ACQUAINTED

In a catalog of this size, it is almost impossible to cover all of the many interesting and important things entering into a proposition so full of significance to you, as that offered by The Nashville College of Chiropractic, with its large variety of courses.

We will be glad to answer questions, and will endeavor to give you any information you may need. But the only way to get an adequate picture of the school and the unusual work it is doing, is to come and see for yourself. That is why we most cordially invite you to come and get acquainted . . . and do it real soon!
