The Synergist

VOICE OF THE STUDENT BODY

MARCH-APRIL

EDITORIAL

This is the last "Regular Issue" of the Synergist. The next publication will be a special Graduation Issue appearing about the 1st of June.

At this time I would like to thank all patrons and subscribers for their contributions; all Faculty and Students of Western States College for their whole-hearted cooperation and support of their school paper; and to the staff members of the Synergist for so unselfishly devoting their valuable time and effort in the interest of their school and profession.

Next year, as I understand, the Synergist is to be on a regular subscription basis, \$1.50 per year with issues monthly. All Doctors in the field interested in receiving the Western States College paper next year, should inform the Synergist publications office of their intentions as soon as possible so that our mailing list will be fairly complete by publication time next Fall.

With the new S.B. Officers having completed nearly two months in office, it seems in order to let the students of W.S.C. know what the S.C. has been doing.

At our meetings we have been trying to arrive at an equitable budget for the S.B. treasury. Another item on the agenda has been this year's Improvement Fund. This school, as all Colleges, is in constant need of improvement both on the outside, and on the inside. A great deal has been done with that never stopping paint brush, but the auditorium has stood untouched. By the time this issue goes to press, you will see a new curtain behind the stage. Also there will be a new public address system installed. One that will carry voices to every corner of every room loudly and clearly.

Public Relations and guest speakers at assemblies is the second important task facing the S.C. The idea is to make the name of W.S.C. one which people will always associate with Chiropractic and Naturopathy, and to let the physicians in the field realize that there is a College here in Portland. For those who haven't heard, the College has embarked upon a concentrated public relations drive aimed at prospective students, doctors, and laymen. This drive is under the direction of Dr. R.M. Failer with the assistance of Dr. Robert Pfeiffer who is the Public Relations representative of the S.B. They have been to every meeting within reach in the past two months, telling the doctors about W.S.C., and they have done a very creditable job.

T.A. Bradley

A LETTER TO THE EDITOR...

Last night I read an article which stated that in a few thousand years man will probably have no intestinal tract, (except to pass pills), no feet, just stumps, and, here is the interesting part, a super brain which will be so highly developed that there will no longer be any need for talking. Just think of the possibilities of using this telepathic power during examinations. Speaking of telepathy, one almost needs it to keep up with the ideas of our new S.B. President. Under his supervision, the S.B. is constructing a new curtain around the stage in the gym. I just paid my Student Body fees with a new gusto and anticipation of what's to come financed through the S.B. funds.

SOPH SIGHS

by
bob

Mr. and Mrs. R.C. Mollenhauer are the proud parents of a bouncing, 6lb. 9oz. baby boy. The lad, young Michael Paul, was born in the hospital elevator at 4:35 p.m. on March 29, 1955. Wife, child, and father are doing fine.

Belated news - Robert Skinner signed the dotted line last November ...Married!

"Buckshot" Hayes announced that his WIFE bought a 1955 Oldsmobile. Who controls the money here, anyhow?

"Playboy" Ricks bought a 1950 Olds convertable. Yellow with whitewalls. What does his wife think of this wagon?

Orval Ladd got out of the Ford rut by purchasing a 1955 Dodge. Good move.

Attention Isidore Don:

Was your recent Tympanotomy of a spontaneous nature? Have you noticed any of the symptoms of Meniere's Syndrome? Has this condition manifested itself as aphasia, apraxia, aproctia, or even Dysdiadokokinesis?

During spring vacation Amber Davidson, on his way home to Wyoming, spent seven days in Eastern Idaho. Snow bound.

Fred Odell rushed to Twin Falls, Idaho.

Kay (Homesick) Saito spent one day in Seattle.

"Percell" Draper (Pride of the Sophomore class) fought the elements for a 90 mile trip to Shark Creek, or Alligator Run, Washington.

The Sophomore Class offers its deepest sympathy to the Rilcy Landacres on the loss of their two year old daughter.

.....

JUNIOR JARGON

by
Ralph Kuipers

On behalf of the Junior Class, I'd like to wish all those Students and Graduates who went to take the Basic Science Examination the very best of luck.

Holiday Happenings:

Jack Sutherland went to Utah for Easter; Judy and Doris were joined in Vancouver B.C. by Dean Stone and Jack Pearly. Ralph Kuipers went to Kelowna B.C.; Paul Crown Drove to Washington; T.A. Bradley went rabbit (Easter) hunting; Bob Pfeiffer went to Seaside and Corvallis; Henry Linke went home to Washington; and when I asked Shirley Caverly what she did during her holidays, she replied, "I tore down two garages and covered a davenport"; and Ralph Wigham spent the best part of his vacation figuring out his income tax.

Now that everyone has returned, I think it would be a good time to start planning a class picnic.

If the way the tickets for the big Graduation Dance have been selling in the other classes as they have with the Juniors, I think that this dance will be the "mostest".

SIGMA PHI KAPPA

by
Les Wegner

The Sigma Phi Kappa Fraternity is giving a dance on April 30th at Western States College in honor of the graduating Seniors.

We have a big surprise for.....!!!
Come and see who it's for. It might be YOU!
A radio will be raffled the same night and if you want tickets see any fraternity member. Let's all turn out and give the Seniors a good send off, at the Graduation Dance April 30th.

V. Thorneycroft

W.S.W.S.C.
by
Blanche Durish

Born to Mel Sipe....A baby Boy. Congrats, Dad.
Johnny Johnson is now practicing in Gresham
Oregon and has extended an invitation to all
W.S.Cers to visit him.

It seems that Mrs. Murray is slightly confused
on "certain Things". Overheard:

Mrs. Murray to Dr. Robt. Elliott:
"Did you have your baby, yet???????"
Dr. Elliott:
Mrs. Murray! Men don't have babies!!!!!!
(Hummmmmmmmm?)

Did Doris' girdle really break??? Rumor has it
YES. And Dr. Anderson fixed it with scotch
tape?? (H.O.??) (Hummmmmmmmm???)

A little bird told me that G. Mitchell beat Dr. G.
Wildebour in ping pong. Is this true Dr????

A suggestion:

Why doesn't the College form a glee Club?
There are lots of talented singers and musicians
around the school.

The women students of W.S.C. held an
official meeting one fine April day and
elected new officers.

President Shirley Caverly
Sec-Treas. Monica Tracy

Helen Larson (who does everything so
easily and well) has offered to sew new
covers for our lounge furniture, with
material purchased by us some time ago.

Judy Birzneck had an idea - both logical
and lovely. A W.S.W.S.C. luncheon at some
interesting place. Plans for this extra-
curricular event are now taking form.

Our March meeting with the women doctors
in the field held at Dr. Wehoffer's home, was
in reality a sewing circle. In no time at all
a belt of cloth was transformed into a bundle
of gowns for the College Clinic. We wish to
express our thanks, on behalf of the Clinic, to
the following persons who generously
contributed to the fund:

Drs. Myrtle Miller, Walter Reisinger,
Dorothy Johnstone, Beth Schmidt, Pauline
Svehaug, Augusta Wehoffer, Marie Van Beek,
Irene Lucas, Anna Finseth, Cora Getty Anderson,
Hill, Blanche Rothrock, Ida Marti, Young,
Nellie Eyrd, Hazel Faylor, Appa Anderson,
and Mabel Easter. Special thanks goes to
District #5 of the Roseburg area whose
generous contribution was \$25. To date a
total of 56 gowns have been made. The next
meeting will be a repeat performance with
work and fun which will benefit us all.

GENIUS AT WORK

by
Lee Davis

Hi Ho and a cheery hello to you. Well, we have another offering from the talented anonymous S.B. Unfortunately, the author didn't name his selection, but I'm sure the theme of the poem speaks for itself.

Oh! Spring, We've waited long for you,
And here you come, so gay;
Tripping along the fields so green,
Singing the songs of May!

We thought, when Old King Winter
Was blowing his breath around,
That you were gone forever
And never could be found.

Now here you are among us
With flowers in your hair,
And birds upon your shoulders,
And your perfume in the air.

The lambs frolic round you
And children play all day.
We are so happy to have you
Singing your songs of May!

Dear readers, (Now who is it that starts out with that trite phrase?) This will be the last time I will have an opportunity to say anything. Unless I manage to sneak something into the Graduation Issue. But it has been fun, hasn't it?

L.D.

ODDS AND ENDS (more)

Overheard in Class:

Dr. G. Wildebour:

...and a single Dog Fish Shark may have several thousand babies at one time...

Blanche R.:

Oh! My goodness! How many do married ones have???

Given to the Synergist by Dr. R.M. Failer:

IF A DOCTOR IS DOCTORING A DOCTOR
DOES THE DOCTOR DURING THE DOCTORING
HAVE TO DOCTOR THE DOCTOR THE WAY THE
DOCTOR BEING DOCTORED WANTS TO BE DOCTORED,
OR DOES THE DOCTOR DOCTORING THE DOCTOR,
DOCTOR THE DOCTOR THE WAY HE USUALLY
DOCTORS???

Not too long ago Lorene Beaver's budgie, BEEGEE Beaver went to the Happy Bird Land. I am sure the entire Student Body joins the Beavers in their recent loss, and offers them their deepest sympathy. Baby BAMBI Beaver now occupies all their spare time.
