Western States College

# The SynErgist

VOICE OF THE STUDENT BODY

*Seasons Greetings*

NOVEMBER DECEMBER

## EDITORIAL

The SynErgist at this time wishes to express congratulations to Dr. Ralph Failor, Dr. Linden R. Launer, Dr. Gene A. Dellent, and Mrs. Elizabeth B. Murray on their recent staff appointments.

This paper, being a student publication, might at times disagree with certain college policies and politics, but only in an intellectual capacity. The SynErgist recognizes faculty authority and will not, at any time, attempt to dictate converse opinion or propaganda unless it is the will of the majority, being subservient to that faction as well as to the College Staff.

The Latin proverb, "Lux MENTIS, Lux Orbis" (The Light of the Mind is the Light of the World), states a basic philosophy which this paper tries to adopt in its policies.

X-RAY TERMINOLOGY

by

DR. A.L.A.

HECKILTY PECRILTY:

little spots

G&B:

Large spot

GOO:

Splattered spots

E Gods:

Fervent prayer

GLOB:

Large spot with an "l"

A LITTLE PUMP AT THE SIDE GOING PUT, PUT, PUT:

Colonie machine

CRINCKILTY:

Rather crunchy stuff

WIGGLITY:

Possessing a quality of motion

SCADS:

Oodles (Ops, pardon me!)

Ed. note: Lots of

FLANGE:

Something sticking out to one side.

Note: For additional terms, sit in on the  
X-ray Interpretation class.

PREXY PATTER

by

DR. RALPH FAILOR

I would like to extend to all of the students and faculty of Western States College my best wishes for the coming holidays.

At this time I would like to call your attention to the fact that it is not we, as the Drugless Physicians, who do the healing of the sick, but rather, the Great Physician who accomplishes the mending of twisted and ill bodies.

SIGMA PHI KAPPA

by

Bob Pfeiffer

Sigma Phi Kappa wishes to extend a hearty welcome to the following new members who were initiated into the conclave at the formal banquet on November 5, 1954.

- \* Jack Sutherland
- Kay Saito
- Robert Fleming
- Fred Odell
- Duane Sturdevant
- Lester Wegner
- Donald Hammond
- Stan Ricks
- Robert Garrison
- Fionntan Mac Cuill

Plans are shaping up very nicely for the TOP HAT DANCE on Saturday, 26 of February, 1955. This will be a repeat of the big shindig sponsored by the Fraternities 2 years ago. Mark the date on your 1955 Calendar.

The Fraternity wishes to remind the Faculty and students that there is still plenty of time to order any appliance at a reasonable discount from any of the members.

Welcome back, Joe.

FRESH FACTS

by

Gerald Ludeman

Future events, which are being planned by the Freshman class, include two raffles, and a dance. The dates of which will be announced later.

A large number of "Rattus domesticus cagius" in the Animal Research Laboratory have been under experimentation since the first of September by the Freshman class. These experiments, in vitamins, minerals, and hormones, are showing astonishing results. All those interested are invited to view the results.

A 10lb boy was born to Mr. & Mrs. Lewis Schnacky October 23, 1954. This makes the family total a healthy 7.

Officers of the Freshman class are; Les Wegner, Pres; Lewis Schnacky, V. Pres; Chris Keller, Sec.-Treas; Duane Sturdevant, S. L. Rep; Jerry Ludeman, Reporter.

## GOINZON

by

V. Thorneycroft

The faculty has asked that the students refrain from playing ping pong until after 2:30 pm. This is for the benefit of those students and instructors in class at that time in eliminating all unnecessary distractions. A note from the office states:

Student must not remain in the bldg. after 9 pm. on Mon. thru Fri., or be in the bldg. on Sat. or Sun. unless with specific written permission from the office.

## ORCHIDS AND ONIONS

ORCHIDS: to Roger Johanson et al who donated time and effort in providing the school with a much needed ping pong table.

ONIONS: to those culprits who absconded with  $\frac{1}{2}$  dozen valued ping pong balls.

ORCHIDS: to Dr. Anderson who is giving the freshman class Osteology ala X-ray films.

ONIONS: to the person who locked Jack Sutherland out of the bldg a week ago last Sun. when he went to eat. (Jack is doing a nice job painting etc., let's not discourage the fellow.)

ORCHIDS: to Dr. Launer who is going to "look after" the R.D. Gagii over the holidays.

HOLIDAYS

GENIUS AT WORK

by

Lee Davis

The Editor and yours truly would like a bit of space here and urge the Faculty to turn in news articles or other items of interest as well as the students.

This issues selection was a request. Hope you like it Dr.

Always winter

always winter  
never spring.  
Always winter  
no birds to sing.

Always winter  
fog and rain.  
Always winter  
biting pain.

Always winter  
cold and storm.  
Always winter  
never warm.

Always winter  
ice and snow.  
Always winter  
no flowers grow.

Remember, we are always glad to oblige requests,  
but would like something from the students, too. L.D.

GGINZON

(more)

The clean up, paint up, fix up day of last month seemed quite a success. A suggestion: Why not plan two such days a year? One in the fall and another in the spring. Each department could submit a list of small jobs to be done in advance of the date and supplies could be ordered in anticipation of student assistance.

# "GM-100"

GM 100 IS A HEAVY CONCENTRATED FORM OF NATURAL MINERALS

It has been found very effective when used as a healing agent following hemorrhoidal surgery, excellent for enema or vaginal douche, healing and astringent.

Use Full Strength for Abrasions and Sunburn. As a Hemostat use full strength as topical application on cuts and open wounds.

Excellent in Iontophoresis also.

One Ounce Size  
\$1.25 Retail

DIRECTIONS:  
ENEMA OR VAGINAL DOUCHE: 20 to 30 drops to each quart of warm water.  
NASAL DOUCHE: Two to three drops to each ounce of cold or warm water.  
EYE WASH: One to two drops to each ounce of warm water. Apply with glass eye cup.  
MOUTH WASH OR GARGLE: Twenty to thirty drops to the ounce of water.  
CUTS OR ABRASIONS: Apply full strength, or use as directed by your doctor.

## GM 100

**AN ASTRINGENT AND DETERGENT SOLUTION**

A concentrated aqueous solution of Natural Minerals consisting essentially of Iron and Aluminum Sulphate.
