College Purchases Complete Library

Recently Western States Chiropractic College was put in an enviable position by acquiring the complete United Medical Laboratories Library. This library consists of a number of thousands of volumes of scientific journals, reference books in histology, microbiology, immunology, pediatrics, geriatrics and industrial references in pharmacology and related fields.

Also included in the purchase is a complete Medical-legal library. The card file index which would cost several thousand dollars to duplicate was also a part of the transaction. An estimated value of the total purchase is in excess of \$150,000.

Funds are now being sought to build the needed bookcases for the library. Additional help has been hired to man the library full time.

Dr. Herman H. Peters Memorial Loan Fund

The First National Bank of Oregon, Eugene, Oregon has notified the college that a \$20,000 bequest was made by Dr. Peters for the purpose of a student loan fund. The College Administration is looking forward to immediate receipt of these funds and will organize the loaning of the funds on a self perpetuating basis. Monies will be loaned to juniors and seniors at low interest according to Dr. Peters wishes.

According to government sources funds of this nature can be loaned with the government paying the interest and guaranteeing the repayment of the funds.

Dr. Peters also, in his will, asked that any of his equipment that had value as museum pieces, be given to the new Western States Chiropractic College Museum.
