

Foundation Makes Gift

Recently the Anabolic Foundation made it possible for Western States Chiropractic College to apply for a grant to up grade teaching equipment in the institution.

The grant proposal was for a Zenith Adjusting Table to be placed in the Junior Clinic.

The Anabolic Foundation approved the proposal and the equipment has been obtained.

Pictured left to right are: David A. Rutolo, Jr., Ph.D., from the Marketing Division of Anabolic Foods; Richard H. Timmins, President of Western States Chiropractic College; and Art Blake, D.C., Distributor for Anabolic Foods in Oregon.

Admission Requirements for Fall 1978

The following requirements are listed in the new addendum to the 77-78-79 catalog.

General inorganic chemistry sequence with labs for science and preprofessional (i.e., pre-med) and chemical engineering majors; minimum of one year sequence (two full semester or three full quarter courses) of not less than 8-10 semester or 12-15 quarter credits;

Organic chemistry sequence with labs for science and preprofessional majors; minimum of 6 semester or 9 quarter credits (one full year is recommended);

Biological science sequence or equivalent (i.e., general biology, zoology, or with approval, anatomy, physiology)

June/July 1978

with labs for science and preprofessional majors; minimum of one year sequence (two full semester or three full quarter courses) of not less than 8-10 semester or 12-15 quarter credits; Botany sequences do not fulfill this requirement;

General psychology sequence; minimum of 4 semester or 6 quarter credits;

English composition or communication skills; minimum of 4 semester or 6 quarter credits;

College mathematics (i.e., intermediate college algebra or higher); minimum of 3 semester or 4 quarter credits.

Effective Fall 1979

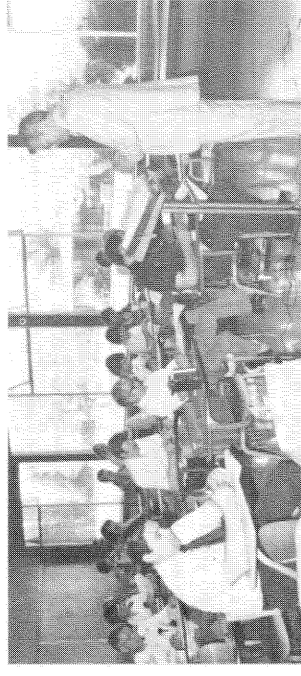

In addition to the 1978-79 requirements, a minimum of 3 semester or 4 quarter credits will be required in social sciences or humanities. A minimum of 6 semester or 9 quarter credits will be required in English composition or communication skills.

Effective Winter 1981

In addition to the 1979-80 requirements, a sequence in physics with labs will be required, minimum of one year sequence (two full semester or three full quarter courses) of not less than 8-10 semester or 12-15 quarter credits.

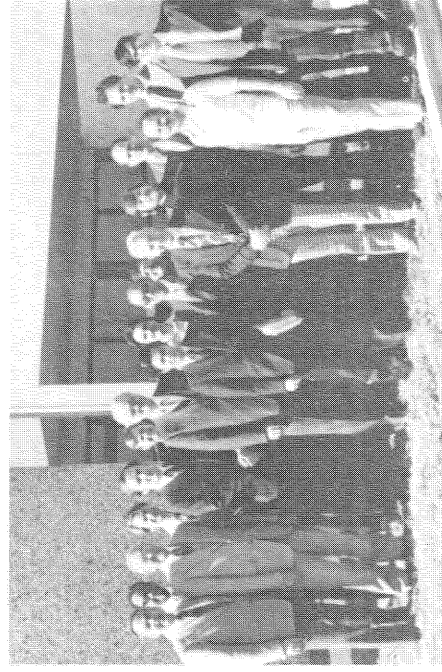

Budden Honored

The Board of Trustees of the Health Research Foundation has named the library in honor of Dr. W.A. Budden. A Bronze Plaque will be placed on the building naming it the "W.A. Budden Library." Budden was President of the College from 1928 until his death in 1954.

Dr. Henry West conducting May Orthopedics class.

Symposium Planned on Spinal Neurology

Pictured at Houston meeting of the Chiropractic Research Commission are, from left: Dr. Van D. Mericas, FCER President; Dr. William Davis, Western States College; Dr. Arthur M. Schierholz, Dr. Alex Warner, Cleveland, of Kansas City; Dr. Davis Mohle, Texas; Dr. Hoyt B. Duke, Commission Chairman and FCER Trustee; Dr. Taun Tran, Los Angeles; Mr. Frank Rudesael, Texas; Dr. Leonard E. Fay, National; Col. Edward Verner, Los Angeles. Dr. Bertram Spector, New York; Dr. Barry Davis, Logan; Dr. Robert Siminoff, Pasadena; Dr. John Triano, visitor, University of Colorado; Dr. Scott Haldeman, research consultant to the American Chiropractic Association; and Dr. Howard Silberstein, Palmer. Not present when picture was taken were Dr. Ronald Watkins, Life College; Dr. Richard Satterfield, Cleveland of Los Angeles; and Dr. Henry West, Jr., ACA.

HOUSTON, TEXAS — A chiropractic research symposium on spinal neurology will be held at St. Louis in April 1979, under sponsorship of the Foundation for Chiropractic Education and Research (FCER).

The program will include several scientific lectures. Papers will be invited on spinal neurology, spinal injury and pain, spinal manipulation, and spinal anatomy.

The decision to hold the symposium was reached at a meeting here of the Chiropractic Research Commission, which consists of research directors of chiropractic colleges and several leaders from the profession. Logan College of Chiropractic, Chesterfield, Mo., will be the host college for the symposium.

The Chiropractic Research Committee discussed plans for cooperative research projects by chiropractic colleges, including a compatible computer system with a terminal in each college for statistical exchange of clinic studies. There was also discussion of standardizing diagnostic and analytical clinical procedures of the clinics furnishing information for the studies. Development of a procedural manual was proposed. These proposals stem from a project under way at Northwestern College of Chiropractic, St. Paul, Minn.

Commission members agreed to specify each year a research problem and to invite all chiropractic college research staffs to study it and to submit findings to the commission.

Paul Silverman, Ph.D., a consultant to the FCER, told the commission that research on the mechanism of vertebral subluxation is essential and should not be left to non-chiropractic researchers. But he urged a holistic rather than a reductionist process.

Scott Haldeman, D.C., Ph.D., M.D., a consultant to the American Chiropractic Association, told the group that "the

FCER is to be congratulated on having the foresight" in founding the Chiropractic Research Commission a year ago. "This Commission will do a great deal to stimulate chiropractic research in the colleges," he said.

Twelve colleges were represented at the meeting. They are: Cleveland of Kansas City, Mo.; Cleveland of Los Angeles, Calif.; Life of Marietta, Ga.; Logan of Chesterfield, Mo.; Los Angeles of Glendale, Calif.; National of Lombard, Ill.; New York of Old Brookville, N.Y.; Northwestern of St. Paul, Minn.; Palmer of Davenport, Ia.; Pasadena of Pasadena, Calif.; Texas of Pasadena, Texas; and Western States of Portland, Ore. Commission members at the Houston meeting toured the Texas Chiropractic College. Other speakers included Dr. Van D. Mericas of Dearborn, Mich., FCER President; Dr. Hoyt B. Duke of Augusta, Ga., FCER Trustee and Commission Chairman; Dr. Arthur M. Schierholz of Clear Lake, Ia., Secretary, and Dr. Henry G. West, Jr., of Pocatello, Idaho, Past President of the American Chiropractic Association.

1978-1979 College Calendar

SUMMER QUARTER 1978

Orientation Day	July 7, 1978, Friday
First Day of Class	July 10, 1978, Monday
Labor Day Holiday	September 4, 1978, Monday
Pre-registration for Fall Qtr.	September 11, 1978, Monday
Finals Week	September 18-22, 1978
QUARTER RECESS	September 23-October 1, 1978

FALL QUARTER 1978

Orientation Day	September 29, 1978, Friday
First Day of Class	October 2, 1978, Monday
Thanksgiving Holiday	November 23-24, 1978
Pre-registration for Winter Qtr.	December 4, 1978, Monday
Finals Week	December 11-15, 1978
CHRISTMAS RECESS	December 16-January 7, 1979

WINTER QUARTER 1979

Orientation Day	January 5, 1979, Friday
First Day of Class	January 8, 1979, Monday
Pre-registration for Spring Qtr.	March 12, 1979, Monday
Finals Week	March 19-23, 1979
QUARTER RECESS	March 24-April 1, 1979

SPRING QUARTER 1979

Orientation Day	March 30, 1979, Friday
First Day of Class	April 2, 1979, Monday
Memorial Day Holiday	May 28, 1979, Monday
Pre-registration for Summer Qtr.	June 4, 1979, Monday
Finals Week	June 11-15, 1979
SUMMER RECESS	June 16-July 8, 1979

Sale of Adjusting Tables

Two companies specializing in adjusting tables have made their tables available to the College on a consignment basis. After a year's use the College is asked to sell the tables at a reduced price and the company then replaces the table with a new model.

Re-Lax-O had four tables on consignment. Two of these have been sold.

Zenith has twelve tables on consignment. They will become available at different times throughout the year starting in June. These tables are all automatic hi-low's.

X-Ray Department Needs Funds

There is continuing interest in the expansion of the X-ray Department at the College Clinic. The additional equipment needed is an X-ray unit with image intensification, spot filming with T.V. monitoring and tomography.

To fulfill its requirements for a Residency Program the college will need the above mentioned equipment. The Residency Program has been inaugurated and one Resident is enrolled.

This equipment would also allow the Clinic to serve the field doctors by performing gastrointestinal studies and localization of obscure lesions throughout the body. Gifts for this program are being solicited.

An attractive offer has been received from X-Ray Incorporated of Oregon regarding the set-up of two rooms of X-ray equipment for the College Clinic. One room would contain a 300 MA 125 KVP worth approximately \$19,000. This would be a gift to the College. The other room would contain a 500 MA/125 KVP unit with fluoroscopy and tomography. This unit would be available at a reduced price.

Pacific X-Ray Corporation has also made an offer of a unit to be given to the College free of charge. It would not meet the requirements of the Residency Program but would meet the needs of the second radiographic unit at the Clinic.

Graduating Class March 1978

Twenty-eight students received their Doctor of Chiropractic Degrees on March 23 at the Warner Pacific Chapel.

The Commencement address was presented by the Honorable Sandy Richards, Representative of District 22, State of Oregon.

George Dunn, M.Ed., D.C. conferred degrees and Richard D. Stonebrink, D.C. administered the Chiropractic Oath. Alan Pearson, D.C., Summa Cum Laude, was class valedictorian and made the class presentation.

Those graduating were:

Mark S. Burdell	Glenn V. Nicholas
Jack L. Clark	Leah M.F. Nomm, B.Ed.
James G. Croisant, B.S.	Matthew Nomm, B.A.
Ellen Wagner Cutler, B.A.	Hector R. Oksendler, B.K., R.P.T.
Paul J. Danis	Alan R. Pearson, B.A.
Kent A. Edlund	Jack E. Pedersen, B.A.
Stephen W. Edwards	Barbara F. Rassow, B.A.
Patrick L. Eleam	Gary D. Saalfeld
Rex A. Hefley, B.A., M.A.	Jana M. Saunders
Gregory A. Kahn	Terry L. Stellflug
Jonathan S. Kantor, B.S., M.P.H.	John L. Strauss, B.A.
William R. King, Jr., B.S.	Zindani R. Tilchin, B.A.
Jack A. Long	David R. Waters
James T. Martin, B.S.	Spencer G. Williams, B.S.

American Association of Colleges Approves WSCC for Membership

On February 9, 1978, at their annual meeting, the American Association of Colleges Board of Directors unanimously elected Western States Chiropractic College into membership. We are the first professional school to ever be admitted to membership. The AAC is a national association of colleges and universities devoted to the advancement of humane and liberating learning. The aim of the Association is to encourage the integration of liberal learning into the higher education of

all students and thus to combine its beneficial effect with the acquisition of broadly usable skills.

The AAC provides to its members a forum in which institutional and academic leaders may communicate with and learn from each other, consultation services to member colleges on issues involving liberal learning and conducts studies and projects and disseminates the reports they produce. They also provide regional dialogues twice a year, academic deans' workshops, executive search, federal resources advisory service and collective bargaining information service.

Dr. Dangerfield conducting recent Cardiology workshop. Mrs. Dangerfield is to his left along with other participants.

Tuition Up

Commencing with the opening of Summer session tuition will be raised to \$850.00 per quarter. This decision was made at the May Board meeting of the Health Research Foundation.

This new tuition will be on a par with other chiropractic colleges although some are lower and others are higher. The raise is made necessary by continuing inflation and additional expenses in operation. Colleges in general are having the same problems relating to inflation and private non-profit schools are feeling the cost squeeze even more.

Average salaries of teachers in Oregon Education are listed below:

Elementary, Secondary	— \$13,034
Community Colleges	— \$16,016
State Colleges	— \$17,549
State Universities	— \$19,610
Independent Colleges	— \$15,741

Bookstore Expands

The Bookstore has been growing and expanding along with the College. We are now carrying a wider selection of books than ever before at prices lower than retail. The Bookstore handles Champion and Acme Juicers, Pure Water Society distillers, honey in 60 lbs. T-shirts, stationery supplies, medical dictionaries, vitamin and mineral supplements, anatomical and miscellaneous charts, Lloyd portable adjusting tables, Schell medical bags, clinic jackets, diagnostic equipment and other medical supplies.

The following books are on special this month in the Bookstore:

* Chiropractic Spinography by Roy Hildebrandt (A Manual of technology and interpretation)	\$13.00
* Chiropractic Procedural Examination by Lee Arnold, D.C. (Systematic review of standard diagnostic methods and tests and interpretation of his findings)	\$25.00
* Basic Diagnostic Radiology by Jones	\$13.00
* You Body Is Your Best Doctor by Page and Abrams	.85
* The Neurodynamics of the Vertebral Subluxation by Dr. A Earl Homwood	\$15.50
* Swiss Annals	\$15.00

The Bookstore carries many books under the following

subjects: Anatomy and Physiology, Chemistry, Diagnostics, Microbiology, Neuroanatomy, Homeopathy, Gynecology, Kinesiology, Nutrition, Endocrinology, Emergency Care, Pathology and General Reading. Please write for a list of titles under the particular subject you are interested. The following are books we carry under the subjects **CHIROPRACTIC**, and **ORTHOPEDECS**.

CHIROPRACTIC

<i>Title</i>	<i>Author</i>	<i>Price</i>
Adjusting the Child	Stierwalt	10.75
Anatomical Adjustive Technic	Beatty	11.00
A System of Body Mechanics	Coggins	17.50
Applied Chiropactic in Distortion Analysis	Kotheimer	8.40
ANNALS of Swiss Chiropactor's Association	Bollier	
Volume III		22.50
Volume IV		22.50
Volume V		22.50
Volume VI		22.50
Back Pain	Mennell	12.50
Basic Chiropactic Procedural Manual	A.C.A.	34.00
Belgian Chiropactic Notes	Licken	15.00
Biochemical Nutrition for Spine	Johnson	2.50
Chiropactic Adjuster (Science, Art & Philosophy)	Palmer, D.D.	12.50
Chiropactic and the Law	Homewood	4.00
Chiropactic Spinography	Hildebrandt	13.00*
Chiropactic Legal Story	Simmons	8.00
Chiropactic-Modern Way to Health	Dintenfass	1.50
Chiropactic - Science of Specific Spinal Adj.	Scofield	10.15
Chiropactic Speaks Out	Wilk	5.50
Chiropactic Story	Bach	2.00
