

WINTER 1978

C.C.E. Visitation Set For February 26

The Council on Chiropractic Education will have their accreditation team visit the College from February 26th to March 1st. Team members will investigate all areas of administration and academics. They will also meet with the Alumni and the Board of Trustees.

Dr. Ron Menke, Chairman of the Basic Science Division, has been serving as the Assistant to the President for Accreditation. The College self-study was completed in August of 1977 and was mailed to the Council on Chiropractic Education shortly thereafter for study and review.

Springwall Gift to SACA

The Student ACA chapter of Western States Chiropractic College is the recipient of a grant from the SPRINGWALL EDUCATION AND RESEARCH TRUST and the funds have been used to:

- Purchase literature and materials for Posture Clinics and PR projects at area high schools;

- Purchase a used neurocalograph/neurocalometer.

1977 was the third consecutive year the SPRINGWALL companies manufacturing and distributing the CHIROPRACTIC sleep products have supported student ACA activities at colleges holding representation on the National Board of Student ACA. Each year the chapter has been invited to submit a request for funding of various projects which will benefit the entire school.

The SACA grant is just one of many ways in which SPRINGWALL contributes to the progress of chiropractic college activities.

Dr. Stan R. Lord Visits W.S.C.C. Campus

Dr. Stan R. Lord, Dean of Anglo-European College of Chiropractic in Bournemouth, England, visited the Campus for several days. Dr. Lord has been attending the C.C.E. meetings in San Diego, California.

His Campus visit was to obtain insight in administrative procedures and academic affairs at North American colleges. He was also going to visit National College of Chiropractic and Canadian Memorial Chiropractic College.

Dr. Lord has been Dean of A.E.C.C. for 1½ years. Upon graduating from C.M.C.C. in 1960, Dr. Lord practiced full-time, until taking over the Deanship.

March 4 Clinical Laboratory Seminar

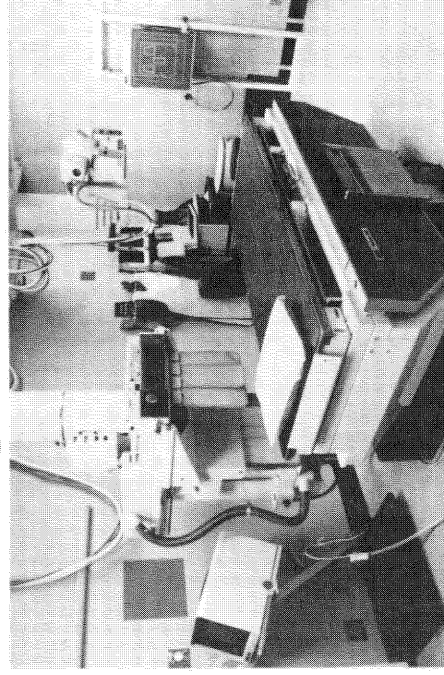

Dr. William Davis, Ph.D., Director of the Western States Chiropractic College Clinical Laboratory and Dr. Ozzie Davis, M.T., D.C. are planning to have another Clinical Laboratory Seminar on March 4, 1978, 9 A.M. to 12 P.M.

The seminar is planned to give the practicing Chiropractor an insight into the W.S.C.C. Clinical Laboratory and to acquaint each person with our consultant, Dr. Ozzie Davis. The Chiropractic profile will be explained and each person will receive a booklet containing laboratory procedures.

There is no charge for this seminar. It is being presented to the field to inform everyone about the outstanding facility available through the Chiropractic profession.

This seminar is a repeat of the program held on January 14, 1978.

W.S.C.C. Expands X-ray Departments

Calling all Doctors:

Have you ever been in an x-ray class taught by Dr. Appa Anderson? If you feel that what you learned there has been meaningful in your practice you can now help Dr. Anderson and the College by making it possible for the X-ray program at W.S.C.C. to make a giant step forward.

The development of a program to train Residents in Roentgenology is well under way but needs your help to complete one very important aspect of the program.

The Clinic X-ray Department is lacking an essential piece of X-ray equipment; namely a unit with image intensification, spot filming with TV monitoring and tomography.

The equipment, while essential to the Residency Program, will allow us to expand our services to the field doctors and the W.S.C.C. Clinic patients, allowing us to perform gastrointestinal studies and the localization of obscure lesions throughout the body. It will also serve as a second radiographic unit for routine studies allowing faster service to the patients. The TV monitoring will allow active observation by the undergraduate student, enhancing his diagnostic ability. This equipment will also be available for a broad range of research. The possibilities in this area are very exciting.

Total cost of the new equipment is estimated at \$93,000.00. This can be put on a seven-year lease purchase program. Alumni are being encouraged to take part in raising the funds for this purchase. We only need thirty doctors pledging \$50.00 per month over the next seven years to complete the project.

Heart Evaluation Department

Dr. Allan F. Dangerfield

The Western States Chiropractic Clinic has a new department called the Clinical Heart Evaluation. This service is available to all field Chiropractors and other practitioners who are interested in knowing the condition of their patients in the coronary, myocardial, valvular and conductive systems. To accomplish this evaluation we use three machines, the Electrocardiograph, the Endocardiograph, and the Heartometer. This is backed up by our licensed laboratory which enables us to analyze the physiological chemistry of the body and the X-ray department for cardiac respiratory evaluation. Dr. Allan F. Dangerfield is the cardiographic consultant in charge of the graphing machines with a senior and junior intern in attendance. The E.K.G. graphing is first done with a phonocardiograph, which is an electrocardiograph that can be attached to a phone, which relays the data to a computer service in San Francisco, which has been programmed by top cardiologists. If the condition is acute an immediate read-out can be obtained so no delay will result in potential cases of acute coronary. This is very helpful to the practitioner because many of these conditions are disguised as pain in the cervicals, jaws, thoracics, shoulders, arm, hand and wrist. It is also common for some coronary conditions to appear as acute anterior thoracic syndromes coming on quickly after sneezing or lifting. The reverse of this is anginal type syndrome that is caused by subluxations of thoracics or ribs. To substantiate this, a stress test is done on our Clinic E.K.G. to find if there is a true anginal condition, for the ventricular leads will only show change, when the coronary artery spasm is the cause.

The conduction system of the heart can be upset by various stimulants and electrolytes. These can be seen on the E.K.G., but shows more complete on the endocardiograph. The heartometer shows all the valvular conditions, muscle tone, pulmonary hypertension and what is called tic tac rhythm, which, if of long standing, could possibly lead to a coronary attack. The heartometer shows rate, rhythm, toxicity, aneurisms, blood pressure in arms and legs, and also the metabolism can be graphed into fast or slow oxidizers. If a thyroid condition is indicated we have a Lawson Kinemometer, which, by evaluating the achilles reflex, can graph thyroid activity. These findings can be verified by our lab tests for body chemical changes that occur with these conditions. This department is under the control of Dr. William Davis, Ph.D., Dr. Ozzie Davis, M.T., D.C., and our laboratory technician, Robert Hoppman, M.T. We have an excellent X-ray department which is headed by Cecily Lansford, R.T., with Dr. Appa Anderson as chief of the department. Nutritional advice is available under the direction of Dr. William Davis, Ph.D., who is also our Chairman of Research and former head of the Radioisotope Department at United Medical Laboratories and nuclear chemist.

With this program available, it will be helpful to the field Chiropractor to have all this data for his case records and to keep a check on the results to substantiate his treatment.

1977 Gifts From Alumni and Friends Up.

1977 donations were almost twice that of 1976. The following donations are listed under their level of giving.

The following doctors made

Class of '53 Twenty-fifth Anniversary

Dr. Appa Anderson, Class of '53 has proposed a 25-year reunion for her class at Homecoming 1978. Dates are October 27, 28, 29, 1978. Appa would like to hear from her classmates regarding their interest in attending and making a presentation to the College. Address Appa at 2900 N.E. 132nd Avenue, Portland, Oregon 97230.

Alumni Happenings

Raymond Mollenhouer, Class of '57 is practicing in Lemon Grove, California, just outside of San Diego. Ray asked us to say hello to all his friends from W.S.C.C. days.

Richard Pozar is at 3412 University Avenue, San Diego, California. He has recently bought out a practice and is doing very well. Richard is from the Class of 1963.

John Baum, Class of 1961 is at 3660 Claremonth Drive, San Diego, California. He and his family just recently moved from Alberta, Canada to California. Joan Baum, Class of 1961 is busy at home with their eight children.

Melvin Sipe, Class of 1954 is located at 2844 W. Van Buren, Phoenix, Arizona. Mel has two sons and a daughter. One son is finishing his D.C. at L.A.C.C. and the other is planning to attend there also.

Stuart Hayes, Class of 1957 was lost in our records for a while. We now have his address as 1587 Lincoln Avenue, San Jose, California.

Tim Binder, Class of '72 is practicing at 2160 Broadway, Boulder, Colorado. Tim has done a tremendous job of referring new students to W.S.C.C.

Ken Yaguchi, Class of 1950 is practicing at 1602 S.W. Fourth Avenue, Ontario, Oregon. He and his lovely wife attended the O.A.C.P. Convention last fall in Medford. He was full of stories about college days. It's unbelievable, the stories he told. Ken suggested a reunion of the Class of 1950. Anybody else interested?

Continuing Education Survey

Western States Chiropractic College Division of Continuing Education CHIROPRACTIC SEMINAR SERIES 1978

March 4-5, 1978

Selected Topics in Clinical Chiropractic

T.D. Maxwell, D.C., F.C.C.S. (C) & Steven Meredith, B.A., M.A.

April 1-2, 1978

Spinal Motion Palpation and Technique

Leonard J. Faye, D.C.

May 6-7, 1978

*Malpractice - Good Practice: A Symposium
Outstanding faculty include*

William H. Dallas, D.C., Arthur D. Cummins, Attorney at Law

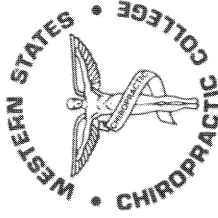

Time Schedule

Saturday, 1p.m. - 7p.m., Sunday 9a.m. - Noon, 1p.m. - 4p.m.

Tuition Schedule (Tax Deductible) Advance Registration

Entire Series 160.00, Each Seminar 50.00
(at the door) Each Seminar 55.00

This series meets the standards of the Oregon Board of Chiropractic Examiners for License Renewal Credit.
