Dear Dr Vear

I am pleased to be able to advise that the Board has agreed that Western States Chiropractic College complies with the requirements necessary for it to be an approved college in terms of the Chiropractors Act 1960. Graduates from your college are therefore eligible for registration in New Zealand, subject of course to their complying with the other individual requirements necessary, ie, general educational requirements, passing the Certificate of Competency examinations in New Zealand and satisfying the Board concerning character reputation etc.

Yours faithfully

A G Hall
Registrar
